MEMORY PROTECTION DEVICES, INC.

New Enclosed Lithium Battery Holder For CR2032 Cells, P/N's BQ2032-3 & BQ2032-6

Memory Protection Devices, Inc. (MPD) introduces its new battery holders for CR2032 cells, part numbers BQ2032-3 and BQ2032-6. The holder accepts the ever popular BR2032, ML2032, and LIR2032 batteries, and is suitable for consumer or industrial products.

BQ2032-3 features a tact switch on-off button, and the cover is safely kept closed with a snap-on feature over the battery and standard 24 awg wire leads in three-inch length.

The UL94 polypropylene plastic body is light in weight, yet offers high strength for a long service life under the typical conditions electronic equipment is subjected to. Due to its very wide temperature range of -40° c to $+90^{\circ}$ c, the holder can be used in a wide range of applications. The holder size is about 0.32" high by 1.25" wide and 1.84" long.

The battery holder prevents a connection of the battery when upside down. This polarity protection reduces service problems and/or calls to the manufacturer using the BQ2032-3 and BQ2032-6 in its products.

List price for 1,000 pieces of P/N BQ2032-3 is \$2.80 each, and volume discounts are available. Delivery is normally from distributor stock or after a short waiting period.

Custom programming is available for production runs, some ideas for microcontroller based battery push button:

Functional Operation Sequence 1:

- a. Push On = turn on power, continuous
- b. Push again = toggle power slowly, at 50% duty cycle
- c. Push again = toggle power faster, at 50% duty cycle
- d. Push again = turn off power

Functional Operation Sequence 2:

- a. Press and hold on (at least 1 second) = turn on power, slowly sweep duty cycle
- b. Push again = sweep rate to medium
- c. Push again = sweep rate fast
- d. Push again = turn off power

Applications:

- a. Wearable Electronics
- b. Glasses
- c. Necklace
- d. Wristband
- e. Helmet
- f. Light-up Pins

P/N: Desc:

BQ2032-3 has 3-inch wire leads and all of the above features.

BQ2032-6 has 6-inch wire leads and all of the above features.

end
